ACADEMIC DEVELOPMENT AT BUV

Following the huge success in 2018, BUV proudly gained remarkable achievements in 2019 on its journey to become a higher education institution of world-class standard.

We launched Cyber Security and Cloud Technologies Programmes, and two new Pathways for Art and Computing programmes. In September 2019 semester, the largest degree student enrolment was recorded with 292 students. 453 students took BUV's IELTS training (both at BUV campus and high schools); The university offered training for 35 provinces in collaboration with Ministry of Foreign Affairs and 1560 teacher training hours for Department of Education and Training at BUV; hosting the remarkable event of the International Tourism Conference and Research Colloquium.

The Master of Business Administration (MBA) programme also grew impressively with two new cohorts commenced in April and October 2019 with the enrolment number of 13 students and 18 students respectively. The feedback from MBA students is very positive, with 95.3% of students from the second and the third cohort are satisfied with the modules delivered since July 2019.

In terms of academic results, the progression rate remained excellent at 98.52%. A larger percentage of students achieved top grades (First class and Second Class – Upper Division) which is 55.83% (4.36% higher than last year). On another note, 100% of students of the first cohort of BUV's programme – Finance and Economics successfully passed the four-year course.

The launching of the online learning management system - Canvas since July 2019 semester has provided a powerful platform that makes it easy to engage with students, providing unlimited access to eLearning materials and easy to track learner progress and performance.

For me, that is a precious opportunity to have an overview of the industry and understand more about the real work."

"The field trip to the Nestle Factory Tour was amazing. I was not only shown how to make a carton of Milo milk pack from the raw materials to the final product but also learned about the factory's possible solutions for risk management in the manufacturing process. What excited me most was the passion of those who are currently working at the factory when they talked about their jobs. Deep inside my mind, I wish that after graduation I could find a job that makes me happy every day as Nestle people did."

VUONG PHUONG THANH, 1810AF

"Although I know that Nestle is a big corporation, I did not expect the field trip to have such many exciting new experiences. Besides, Nestle offered a lot of interesting internship programmes for students, especially the "Nestle Management Trainee", I really think this is an opportunity that worth a try to challenge myself."

Shafieh Dorry- Lecturer, Hospitality and Tourism, Event

"The field trip to Intercontinental Westlake Hotel was a fantastic opportunity for the students to observe how the theory which they learn in the classroom is executed in the real world. We were joined by the regional marketing manager who gave personal further insight into the service and hospitality industry, as well as facilitating an interactive discussion with the students. Successful field trips such as these don't just allow the students to venture out of the classroom, but they can offer an authentic insight into an industry which they may soon become part of"

Michael Alan Lomax, Lecturer, Marketing Management

As one of the guests at your campus' opening ceremony, I was impressed with the University's mission, the infrastructure, the teaching methodology and especially the innovative studying atmosphere. I believe that you are offering high-quality courses and programmes, and so we always welcome your students not only to visit but also to work for our company soon

WHAT OUR STUDENTS SAY ABOUT THEIR INTERNSHIPS?

"I had opportunities to work at WisePass - a start-up lifestyle application that offers a membership package. What an amazing journey! I have learnt so many things related to the marketing field, networking skills and have a chance to see how a start-up rises to top from bottom. Thank you BUV and WisePass."

NGUYEN HOANG NAM - 1710MM

"I LOVE IT! Hilton was a wonderful experience for me. It helps me tremendously in guiding my future career goals and path. I have learnt so much including communicating, cooking skill and being patient. Also, having a 5-star internship opportunity as a first-year student is a HUGE advantage! My long journey will always be as stunning thank for BUV."

NGUYEN THE MINH - 1910TM

"This internship is a continuation of the part-time period at the Student Recruitment and Institutional Partnerships Department. I was an intern here since the middle of May and for nearly half a year, working with SR staff has always been one of the best experiences of my student time. However, most especially are "my teammate", there were Hoang Hiep, Ngoc Ta, and Thao Ngoc and then Huu Trung, Trieu Vy, and Quang Huy. They are the factor that makes my day to work become amazing and extremely great. The friendliness of the bosses, as well as the others, has made me feel loved, taught me about many new things. Thank you to the SR Department, thank you guys, to my colleagues for a wonderful internship."

NGUYEN MINH TUAN - 1810EM

"Last summer, I had the opportunity to do my internship for the Risk Management Division at VPBank Head Office. I worked my first month as a Management Assistant Intern and the rest as a PMO Intern. While I was there, I got the chance to prepare several training and meeting materials relating to PMO, Risk Management, and other VPBank's future projects. Not only did I get to do a lot of challenging tasks but I also received a lot of training about Risk Management and PMO from my supervisors. They have been the most exceptionally patient and delightful people when they show me how tasks are approached or when issues occur. Whilst being there, I was so happy to have received a lot of great feedback about my work, knowing that I am contributing to their operation and I am learning a great deal from them. I am incredibly grateful for this amazing opportunity and I feel that after this, I truly have become a more well-rounded and confident person. VPBank has taught me that real life is a lot more than the lessons on a university, and that has inspired me to constantly strive to be better, academically as well as professionally"

VU HA THUY LINH - 1710MM

"I had an internship at the Sales & Marketing at Sheraton Hotel Hanoi. I am happy and honoured to become one of the trainees who have the opportunity to practice at one of the most popular 5-star hotels in Hanoi. With a professional and dynamic working environment, I have gained a lot of knowledge and memorable experiences. Thank you BUV for helping me find a place for internship."

PHAM VAN ANH - 1910MM

"I must confess that at the beginning, knowing that BUV's students would go for an internship in the first year while most of the other universities' students are still studying hard, I was very surprised because it was only after 3 months studying at BUV, I was still quite junior with the amount of knowledge I had to get ready for a job. But indeed, I changed my mind about the way BUV prepares for its students, BUV always puts students' comfort first, helps each student find their value, and then after 3 months of marketing internship at Apollo, I have grown up a lot, gained a lot of knowledge, acquired new relationships and especially the ability to take care of children. Thanks, BUV and Apollo for giving me 3 very meaningful months."

DINH HOANG VIET DUNG - 1810EM

"Thanks to the support of the SE department at BUV, I've had my very first internship at Vietnam Grand Prix LLC. as a Venue Service Intern. This experience grants me a chance to apply what I've learned at University in the practical context, and understand opportunities as well as challenges in working in a huge business entity like Vingroup. Besides, this chance allows me to acknowledge whether my major is a good fit for me, which helps me to develop suitable strategies to get ready for the future working environment. In a nutshell, I suppose that working at Vietnam Grand Prix LLC. to prepare for Formula 1 Race in Vietnam is a once-in-the-lifetime opportunity to understand me better and get exposed to the real working environment to better prepare for my future."

DO DUC MANH - 1910MM

"Le Bros is one of the leading PR and Communications agencies in Vietnam. Fortunately, I had an internship offer here as an account management position. At LeBros, I have learned the experiences from others in the same position, contributed to the media projects for the first time. It has brought me a great source of practical knowledge, which I haven't got in the University."

NGUYEN MAI LINH - 1910MM

"During this spring break, I was very fortunate to have had the opportunity to work as a Design and Creative Intern for the Graphic Design team of Maximum Ultimate - one of the leading creative agencies in Indonesia. As the name "Maximum", everyone here is maximumly friendly, maximumly fun, but also maximumly talented. Although the internship only lasted for 2 months, I learned a lot from evaluating clients' briefs to running a lightning deadline within a day or persuading clients to choose our ideas. Besides, I also got to know the culture, cuisine of Indonesia, as my lovely colleagues showed me around Bandung and tried lots of street food. I was even able to study a bit of Indonesian and can even order food for myself! After 2 months, I felt no regret at all when decided not to go back for the Tet holiday with my family and stayed here to work. This is truly my most memorable internship ever!"
